

CURRICOLO VERTICALE – LINGUE

IL PERCORSO

Il raccordo tra i tre ordini della scuola nasce dalla consapevolezza dell'importanza dell'apprendimento linguistico nella maturazione globale degli alunni e dalla necessità di potenziare l'apprendimento delle lingue anche nell'ottica della dimensione europea dell'educazione/formazione. Il nostro curricolo va inteso quindi come un «cammino da fare insieme, anziché un tracciato predefinito», un percorso dinamico in continua evoluzione che inizia dalla scuola dell'infanzia e si sviluppa fino alla scuola secondaria di I grado, caratterizzato da una continuità in verticale dei processi di insegnamento/apprendimento. Il termine "continuità" assume soprattutto la valenza di omogeneità nell'approccio metodologico e nel modo di intendere l'apprendimento delle lingue straniere fra insegnanti di ordini di scuola diverse

TRAGUARDI PER LO SVILUPPO DELLE COMPETENZE

Al termine della scuola primaria l'alunno è in grado di:

- comprendere brevi messaggi orali e scritti relativi ad ambiti familiari
- descrivere oralmente e per iscritto, in modo semplice, aspetti del proprio vissuto e del proprio ambiente ed elementi che si riferiscono a bisogni immediati
- interagire nel gioco; comunicare in modo comprensibile, anche con espressioni e frasi memorizzate, in scambi di informazioni semplici e di routine
- svolgere i compiti secondo le indicazioni date in lingua straniera dall'insegnante chiedendo eventualmente spiegazioni
- individuare alcuni elementi culturali e cogliere rapporti tra forme linguistiche e usi della lingua straniera

LE COMPETENZE CHIAVE EUROPEE

Le competenze chiave sono una combinazione di conoscenze, abilità e attitudini che permettono di adattarsi ai costanti cambiamenti della società. La Raccomandazione sulle competenze chiave definisce la competenza come la "combinazione di conoscenze, abilità e attitudini adeguate per affrontare una situazione particolare". Attraverso l'acquisizione di esse gli individui saranno in grado di analizzare, ragionare e comunicare in modo efficiente nel momento in cui propongono e interpretano i problemi nei diversi ambiti. Allo stesso tempo le competenze chiave sono quelle di cui tutti gli individui hanno bisogno per la realizzazione, lo sviluppo personale^[1], la cittadinanza attiva, l'inclusione sociale e l'occupazione. Esse servono come base per un apprendimento permanente e perciò dovranno essere acquisite durante il periodo obbligatorio di istruzione e formazione.
